

# Categorizing and Classifying

## Classification Organizers

**Directions:** Use a classification organizer such as a category chart or network tree to organize categories and subcategories of items or information. You may add or delete columns or ovals as necessary.

### Category Chart

**Topic:** \_\_\_\_\_

| Category 1 | Category 2 | Category 3 |
|------------|------------|------------|
|            |            |            |

### Network Tree

**Topic:** \_\_\_\_\_
